

NEW MEXICO

Referendum Continuing to Gain Momentum

New Mexico is currently in a fight to protect our elections, our children, and our freedom. During the last legislative session, 6 laws were passed that have put New Mexico last in election security and transparency, made it so parents have no rights concerning their children's reproductive and mental health, and took freedoms from churches and people of faith. **We are fighting back!** A group of grassroots volunteers started considering the referendum process, available to the citizens via the New Mexico Constitution Article IV sec. 1. The people followed the law and presented the petitions to the SOS and she has blocked these efforts every step of the way. Despite the SOS, we are in the process of collecting signatures to place the 6 laws on the ballot in 2024.

NOTES

How do we secure our Elections

1. New Mexico needs Voter ID.
2. Discontinue Voter Convenience Centers and go back to precinct level voting.
3. Process election results at the county level without machines. We currently use an uncertified election system tied to cloud-based software.

Current Court Cases

Declaratory Judgement: Larry Marker v. Maggie Toulouse Oliver, New Mexico SOS Case D-504-CV- 2022-00726 Certification of Election System. Next hearing Oct. 3.

Declaratory Judgement: multiple petitioners v. Maggie Toulouse Oliver, New Mexico SOS. Separation of powers, denying the referendum process for the people of New Mexico. Overreach by executive branch.

"We together can and will make a difference."
